---> Comment Text :
Sirs:

1 I am writing to protest the transportation of and the storage of radioactive waste materials to Yucca Mountain in Nevada. This area is earthquake prone, and there is no container proven to be 100% safe from the elements to which the waste would be subjected. This entire issue needs more study, and more thought. It is not fair to the citizens of Nevada, which includes my children and grandson, to risk their health and safety in a scheme that is not proven and may carry considerable danger.

Regards,

Nancy J. Ricci
